| # Mobile Access | 337,899 | 296,940 | 13.8% | 40,959 |
| # Municipalities | 237 | 221 | 7.2% | 16 |
| # Population Covered | 10,224,300 | 9,981,377 | 2.4% | 242,923 |

At the end of **December 2024**, Brisanet served a total of **1,449,716 customers**, of which 1,436,235 were connected via FTTH (Fiber to the Home), covering all 9 states in the Northeast region. The Company now offers coverage in 158 cities and reaches 7.1 million households.

During the period, we highlighted **organic growth of 20,547 HCs, 3,765 of which were customers using FWA** (Fixed Wireless Access) technology. These sales began in regions where we already have mobile coverage, but do not yet have FTTH infrastructure. The success of this strategy reflects our ability to expand into areas with pent-up demand for high-quality broadband services, expanding our presence and consolidating our regional leadership.

Futhermore, Brisanet is expanding its operations through its franchisor, Agility Telecom. The brand is represented by 63 franchisees, which operate mainly in smaller cities and rural districts in the Northeast region, currently serving 141,261 customers. Combining the results of direct operations and franchises, Brisanet has almost 1.6 million fixed broadband customers throughout the Northeast region.

During the period, Brisanet's mobile customer base **grew by 40,959 customers, totaling 337,899 active chips** at the end of December 2024. With the implementation of FWA technology, we continue with a temporary reorientation of commercial efforts in the mobile telephony sector. However, this restructuring is expected to stabilize in the short term, allowing a consistent resumption of growth in this segment.

At the end of the period, the Company reached coverage of 10.2 million inhabitants with its mobile infrastructure, consolidating itself as one of the main operators in the region and expanding its presence to serve a significant portion of the northeastern population with connectivity solutions.

About Brisanet

With 26 years of history, Brisanet is the largest fixed broadband provider in the Northeast region, according to the Anatel's ranking and since November 2021, after winning the Anatel's auction for 2.3 GHz and 3.5 GHz frequencies, the Company also became a mobile operator
