Mobile (5G/4G)							
Operational Data	Mar/25	Mar/24	Var. %	Var.	Feb/25	Var. %	Var.
# Mobile Access	451,788	55,179	718.8%	396,609	417,435	8.2%	34,353
# Municipalities	258	85	203.5%	173	254	1.6%	4
# Population Covered	11,760,000	5,270,000	123.1%	6,490,000	11,200,000	5.0%	560,000

At the end of **March 2025**, the company had **1,496,790 customers**, of which 1,464,979 had FTTH (Fiber to the Home) connections. The company's operations cover the nine states of the Northeast region, with coverage in 158 municipalities and the potential to serve 7.1 million households.

During the period, we achieved **organic growth of 19,560 HCs, driven by 8,602 new customers connected via FWA** (Fixed Wireless Access). This strategy was implemented in regions with already established mobile coverage but no FTTH presence. This performance reinforces our ability to serve regions with pent-up demand for quality broadband, expanding our operations and strengthening our regional leadership.

Brisanet is also expanding its operations through its franchisor, Agility Telecom. The brand is represented by 63 franchisees, who operate mainly in smaller towns and rural districts in the Northeast region, currently serving 141,919 customers. Combining the results of direct operations and franchises, Brisanet has almost 1.6 million fixed broadband customers throughout the Northeast region.

In March 2025, **the Company's mobile customer base grew by 34,353 customers to a total of 451,788 active chips**. With the implementation of FWA technology, we continue to temporarily refocus our commercial efforts in the mobile telephony sector. However, this restructuring is expected to stabilize in the short term, allowing for a consistent resumption of growth in this segment.

At the end of the period, the company covered 11.8 million inhabitants with its mobile infrastructure, consolidating its position as one of the main operators in the region and continually expanding its presence to serve the northeastern population with connectivity solutions.

About Brisanet

With 26 years of history, Brisanet is the largest fixed broadband provider in the Northeast region, according to the Anatel's ranking and since November 2021, after winning the Anatel's auction for 2.3 GHz and 3.5 GHz frequencies, the Company also became a mobile operator.
