Founded 25 years ago, BRISANET has a product portfolio almost 100% in optical fiber and with operations focused on the Northeast region of the country. The Company also operates through its subsidiary **AGILITY TELECOM**, which provides internet services under the franchise model.

At the end of June 2023, Brisanet had **1,209,536 clients in all the 9 states of the Northeast region** – Ceará, Rio Grande do Norte, Paraíba, Pernambuco, Alagoas, Piauí, Sergipe, Maranhão and Bahia – passing in front of **6.7 million households in 157 cities**.

In June, **95.5 thousand HPs** were added. Since mid-2022, the Company has been slowing down investments in FTTH, aiming at maintaining an adequate capital structure during a more challenging period for the economy and the market, in addition to the start of investments in the deployment of 5G – Brisanet is the only operator in the 2.3 GHz in the Northeast, the only one already released in the entire region.

The organic growth of the customer base in June was 18.4 thousand. Brisanet reaffirms the projection of at least 1.3 million customers by the end of 2023.

The Brazilian economic scenario, especially in the region where we operate, remains challenging. Inflation and the pricing strategy adopted by the competition continue to exert pressure on the telecommunications market.

Brisanet continues to advance in capitals and metropolitan regions, with **market share in fiber between 50 and 65% in Natal, Maceió and João Pessoa**, and **over 19% in Fortaleza**. In Teresina and **Aracaju**, where the Company entered the second half of 2021, the market share is already close to 15% in the Piauí and **above 20% in the Sergipe** (May-23 figures).
