At the end of September 2024, Brisanet served **1,401,057 customers, out of which 1,398,486 in FTTH**, in all 9 states of the Northeast region, reaching 7.1 million households in 158 cities. During the period, we highlight the **organic growth of 14,103 HCs, of which 2,571 were FWA (Fixed Wireless Access) customers**, as the Company started a pilot commercial operation in cities covered by 4G/5G operations and without FTTH client base.

Additionally, Brisanet also operates through its franchisor, Agility Telecom. The brand is represented by 65 franchisees that operate in smaller cities or rural districts in the region, serving 171,238 customers.

Considering both bases, the Company serves almost 1.6 million fixed broadband customers throughout the Northeast region.

The growth of the **mobile base** during the period was **30,724 customers**, reaching **222,824 active chips** on September 30, 2024. With the entry of FWA, mobile commercial efforts were divided, but this tends to normalize in the coming months.

The Company ended the period with 8.5 million inhabitants covered by its mobile infrastructure.
