At the end of **April 2025**, the Company had **1,503,491 customers**, of which 1,469,064 had FTTH (Fiber to the Home) connections. The Company's operations cover the nine states of the Northeast region, with coverage of 158 municipalities and the potential to serve 7.1 million households.

During the period, we recorded **organic growth of 6,700 HCs, with 2,600 new customers connected via FWA** (Fixed Wireless Access). This solution was targeted at regions with established mobile coverage but no FTTH infrastructure, allowing us to expand access to quality broadband in areas with pent-up demand. The drop compared to the average growth of recent months is mainly due to the security difficulties we had in some areas and the holidays in the month.

Brisanet is also expanding its operations through its franchisor, Agility Telecom. The brand is represented by 63 franchisees, who operate mainly in smaller towns and rural districts in the Northeast region, currently serving 142,964 customers. Combining the results of direct operations and franchises, Brisanet has almost 1.6 million fixed broadband customers throughout the Northeast region.

In April 2025, **the Company's mobile customer base grew by another 43,000 customers, our biggest monthly growth to date, totaling 495,231 active chips.**

The Company had covered 12.6 million inhabitants with its mobile infrastructure by the end of the period, consolidating its position as one of the main operators in the region and continually expanding its presence to serve the northeastern population with connectivity solutions.

About Brisanet

With 26 years of history, Brisanet is the largest fixed broadband provider in the Northeast region, according to the Anatel's ranking and since November 2021, after winning the Anatel's auction for 2.3 GHz and 3.5 GHz frequencies, the Company also became a mobile operator.
