

Pereiro, CE, August 16, 2021. Brisanet Participações S.A. (B3: BRIT3), the largest company among independent internet service providers in Brazil, according to ANATEL's ranking, announces today some operational data for August 2021.

Founded 22 years ago, **BRISANET** is, according to ANATEL's ranking, the largest Brazilian company among independent internet service providers in the country. With a product portfolio almost 100% in optical fiber and with operations focused on the Northeast region of the country, the Company also operates through its subsidiary **AGILITY TELECOM**, which provides internet services under the franchise model.

At the end of August 2021, **Brisanet** had 772,991 clients in 6 states in the Northeastern region – Ceará, Rio Grande do Norte, Paraíba, Pernambuco, Alagoas and Piauí – being in front of 3.5 million homes, in 108 cities.

The Company added 166,000 HPs in August compared to 199,000 in the previous month. The reduction in the number of HPs is due to some delays in the backbone connection between cities. Disregarding this effect, the addition would have been close to 210,000 HPs.

Customer base grew by 2.5%, or 18,500 in August. HCs were below the initially estimated, but in line with the delay in the Company's fiber optic expansion in 2Q21, as there is a lag between adding the infrastructure and starting building up the client base.

Through Agility Telecom, Brisanet also provides service to 157,415 customers in 5 states in the Northeast – Ceará, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas – with 93 franchisees, surpassing 690,293 households.
