MATERIAL FACT DISCLOSURE OF OPERATIONAL PROJECTIONS (GUIDANCE)

BRISANET PARTICIPAÇÕES S.A. (B3: BRIT3) (“Company”, “Brisanet”), in compliance with the provisions of Resolution of the Securities and Exchange Commission (“CVM”) No. 44, of August 23, 2021 and Law No. 6,404, of December 15, 1976, as amended, informs its shareholders and the market in general that: (i) it will discontinue its operational projections (guidance) in reference to the Relevant Fact, disclosed on April 26, 2023, relating to homes passed and homes connected, for the reasons presented below; and (ii) will publish operational projections (guidance) of the number of municipalities with mobile coverage and their respective covered populations, as per the following terms.

1 – DISCONTINUITY OF DISCLOSURE

1.1 PROJECTION FOR HOMES PASSED (“HPs”):

| Year | Projection (Until 12/31/23) | Actual (Until 11/30/23) |
|------|--------------------------------|----------------------------|
| 2023 | 7.1 million HPs | 7.0 million HPs |

By the end of November 2023, we reached **7.0 million HPs**.

Considering that a household has an average of 3 inhabitants, we reached a population of 21 mm of inhabitants with the FTTH (Fiber to the Home) fixed broadband infrastructure.

1.2 PROJECTION FOR HOMES CONNECTED (“HCs”):

| Year | Projection (Until 12/31/23) | Actual (Until 11/30/23) |
|------|--------------------------------|----------------------------|
| 2023 | 1.3 million HCs | 1.28 million HCs |

By the end of November 2023, we reached **1.28 million HCs**.

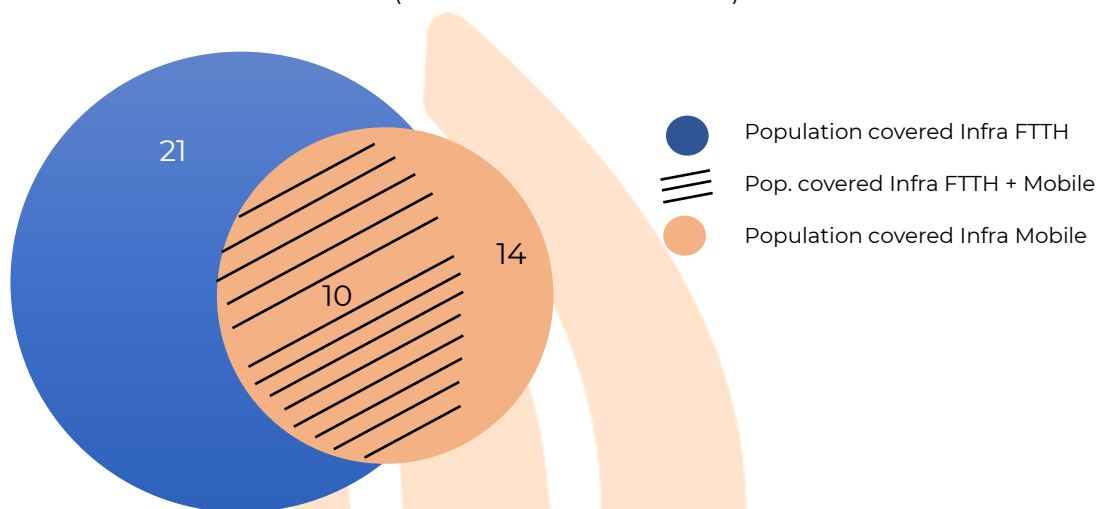

As of the third quarter of 2023, the Company has prioritized investments in mobile infrastructure, which includes the future sale of fixed broadband through FWA (Fixed Wireless Access)

Therefore, the Company's management decided to discontinue the disclosure of the operational projections (guidance) above, essentially due to the current strategic alignment with the Company entering the mobile segment. HCs tend to continue growing given the HP infrastructure implemented and ready to be occupied.

2 – NEW PROJECTION RELEASE FOR ENTRY IN MUNICIPALITIES WITH 4G/5G COVERAGE:

| Year | Projection | | |
|------|---------------------------|----------------------------|---|
| | Number of municipalities | Population Covered (4G/5G) | Population Covered (FTTH/5G Infrastructure) |
| 2023 | + than 40 municipalities | ~ 4 million inhabitants | ~2.5 million inhabitants |
| 2024 | + than 300 municipalities | ~ 14 million inhabitants | ~ 10 million inhabitants |

Population covered at the end of 2024 (in millions of inhabitants):

Seeking to highlight the evolution and pace of the Company's expansion in its mobile segment, we confirm that from this disclosure, the Company announces that it will publish, quarterly (with each release of quarterly results), the operational projection of the number of municipalities that have the Company's mobile coverage and their respective covered populations, in addition to the number of inhabitants covered by our FTTH infrastructure, in the same area.

Any considerations about estimates, forward-looking statements regarding plans, expectations about future events, strategies and financial trends that affect Brisanet's activities, including any previously disclosed projections, which involve risks and uncertainties (and, therefore, are not indicative or constitute guarantees of future results), should not be considered by investors for the purpose of basing their investment decision.

Pereiro/CE, January 02, 2024.
