**MATERIAL FACT**

**4G/5G REVERSE AUCTION RESULT**

**BRISANET PARTICIPAÇÕES S.A.** (B3: BRIT3) ("Company" or "Brisanet"), in compliance with §4 of article 157 of Law No. 6,404, of December 15, 1976, and in accordance with CVM Resolution No. 44, of August 23, 2021, informs its shareholders and the market in general about the result of the reverse auction held by the Entidade Administradora da Digitização de Canais de TV e RTV (EAD)/ Grupo de Implementação do Processo de Redistribuição e Digitização de Canais de TV e RTV (GIRED), for the implementation and operation of mobile service with 4G technology and prepared for the transition to 5G in remote locations in the Northeast and Central-West regions.

The Company was awarded all 52 locations for which it submitted a proposal, totaling R\$56.2 million, to be received after the implementation of the corresponding infrastructure.

The locations are distributed in the states of Bahia, Ceará, Maranhão, Paraíba and Pernambuco, in the Northeast region, and one location in the state of Mato Grosso do Sul, in the Central-West region. The timeframe for implementation is 90 days after the signing of the Term of Commitment, and may be extended for the same period.

For the Company's founder and CEO, Roberto Nogueira, *"Brisanet believes that the best way to bring connectivity to more remote and less populated regions is through public incentive policies. This auction held by EAD, taking advantage of the entity's surplus resources, is an example of this and Brisanet, which has always intended to explore mobile services in these regions, is the most competitive Company to implement and operate these services."*

Brisanet is committed to keeping its shareholders and the market informed about any developments related to this matter.

Pereiro/CE, October 8, 2024.
