R\$200 MM IN LONG-TERM FINANCING – BNDES FUST

BRISANET PARTICIPAÇÕES S.A. (B3: BRIT3) ("Company" or "Brisanet"), in compliance with §4 of article 157 of Law no. 6,404, of December 15, 1976, and in accordance with CVM Resolution no. 44, of August 23, 2021, informs its shareholders and the market in general that the National Bank for Economic and Social Development (BNDES) has approved financing to support the connectivity of public schools and the deployment of a high-capacity network in five states in the northeast region.

The BNDES, as manager of resources from the Telecommunications Services Universalization Fund (FUST), approved financing of R\$200 million for the company. This amount is divided into R\$26.6 million for the implementation of broadband in public schools and R\$173.3 million for the high-capacity fiber optic data transport network in five states.

The first tranche includes the construction of 430 kilometers of fiber optic network, as well as the maintenance of free connectivity for at least 24 months, which will enable the connection of 51 public schools located in 27 municipalities in Ceará and 2 municipalities in Rio Grande do Norte. Around 8,200 students will benefit from the investments.

The high-capacity network, in turn, will have approximately 2,806 km of fiber optic network to serve 96 municipalities in the interior of the states of Bahia, Ceará, Paraíba, Pernambuco and Rio Grande do Norte.

"Digital inclusion has always been an essential commitment in Brisanet's history and has even been the main reason for the company's rise. For 26 years, we have been investing in the Northeast because we see the potential and opportunities that the region offers. Now, with the support of the BNDES FUST Program, we are reaffirming our purpose of also connecting remote areas, bringing innovation and technology to everyone," says José Roberto Nogueira, Brisanet's CEO.
